

PL-HM-600

Overview

The PL-HM-600 is a professional 600W haze machine engineered for stage productions, live events, clubs, theaters, and touring applications. Designed to deliver a fine and consistent haze output without preheating time, it enhances lighting beams, laser effects, and atmospheric visuals with exceptional efficiency.

Featuring DMX control, remote operation, and manual mode, the PL-HM-600 offers flexible integration into both small and large-scale lighting systems. Its adjustable fan angle allows precise haze distribution, while the robust housing ensures reliable operation in demanding entertainment environments. Compact yet powerful, the PL-HM-600 is an ideal atmospheric solution for professional lighting designers and production teams.

Product Specification

Items	Details
Power Supply	AC100-240V, 50/60Hz
Power Consumption	500W
Light Source	OSRAM SIRIUS HRI 330W / Philips MSD Platinum 16R 330W (10R class)
Color Temperature	8000K
Zoom Range	0°-40°
Beam Mode	0°-7°
Spot/Wash Mode	5°-40°
Focus	Electronic
Color Wheel	14 fixed colors + open, rainbow effect
Rotating Gobo Wheel	9 gobos + open
Static Gobo Wheel	17 gobos + open
Prism	16-facet & 32-facet rotating prisms

Feature

- 600W high-efficiency heater for stable haze generation
- No heat-up time required for instant operation
- High output performance up to 6000 cu.ft/min
- Produces fine and even haze to enhance lighting and laser effects
- Adjustable fan angle for optimized haze coverage
- Multiple control options:
 - DMX512 control
 - Remote controller
 - Manual operation
- Compact and durable design for professional applications
- Ideal for concerts, theaters, clubs, TV studios, and event productions
- Easy integration into lighting systems and touring setups
- Stable performance with low maintenance requirements

Items	Details
Dimmer	0-100% linear electronic dimming
Frost	0-100% frost effect
